

Maintenance and Cleaning Products

K.O. Kills Odors!

Eliminates holding tank odors at their source. K.O. works when nothing else will!

- Odor-killing bacteria digests liquids, solid waste and paper
- Does not require adding “tissue digesters” or other “boosters” to be effective
- Safe in any waste tank system
- A small amount of K.O. can easily keep a boat odor-free between pumpouts
- A safe, non-chemical and nonpolluting product

C.P. Cleans Potties!

Eliminates the worst raw odors from the intake line without brushing. C.P. is the only bowl cleaner that can be combined with K.O.

- The first bowl cleaner to combine a specialized strain of bacteria with 100% biodegradable cleaning agents
- Leaves toilet bowls, sparkling clean, Can also be used to clean sinks and showers
- A safe, non-chemical and nonpolluting product that Destroys odors on contact
- Eliminates the need to use bleach and other toxic chemicals to sanitize heads

B.C. Bilge Cleaner!

B. C. is an outstanding bilge and engine cleaner!

- Emulsifies grease, oil and sludge
- Removes slime, dirt, bacteria, fungi and molds
- Nonpolluting and safe on any surface

C.U. Cleans Up!

C. U. is a heavy duty marine cleaner for hulls and decks!

- Removes dirt, grime, mildew and exhaust stains
- Cleans up bird and spider droppings
- Nonpolluting and safe on any colorfast surface

R.C. Raritan Concentrate

R.C. Raritan Concentrate is a toilet deodorant and lubricant

- Emulsifies materials that cause odors associated with raw water use
- Recommended for Atlantes ADS, Crown Head deodorant bottle and TWK
- Not for use with K.O.

K.O. KILLS ODORS!

K.O. Is Not A Chemical Product.

K.O. utilizes live, odor-killing bacteria which digest liquids, solid waste and paper, totally emulsifying them so there's no need to add "tissue digesters" or other "boosters" to your system. The bacteria in K.O. actually neutralize the odor-causing elements in waste, effectively converting the contents of your holding tank to an odor-free product.

K.O. Is More Effective Than Any Chemical Or Enzyme Product.

Chemicals only mask odor temporarily. Although they kill odor-causing bacteria, chemicals also kill other bacteria that suppress odor. Chemicals can actually cause the odor problems you're trying to solve!

Enzymes stimulate the breakdown of waste already in the tank, but are not effective against odor, and are diluted by new waste as it's added. You need only four ounces of K.O. per 25 gallon tank capacity. There is seldom any need to add K.O. between pump-outs, nor do you need to pump out until the tank is full, making K.O. less expensive to use than lower-priced products. Unlike chemicals, the discharge from tanks treated with K.O. is welcome in on-shore sewer and septic tank systems.

C.P. CLEANS POTTIES!

C.P. Is Like No Other Toilet Bowl Cleaner.

It's the first bowl cleaner to combine a specialized strain of bacteria with 100% biodegradable cleaning agents specifically designed to make the bowl shine like never before and keep the entire system odor-free, while maintaining the bioactive environment essential to odor control in your holding tank.

C.P. Destroys Odors On Contact As It Cleans.

Just squirt a little C.P. under the rim of the toilet bowl. Stains, soil, and odor – even the worst raw water odors from the intake line – just disappear, usually without brushing. C.P. eliminates the need to use bleach and other toxic chemicals to sanitize your toilet bowl. Use C.P. to clean sinks, showers and basins too! It leaves them sparkling clean and fresh-smelling.

C.P. Is The Only Bowl Cleaner That Can Be Combined With K.O.

Other toilet bowl cleaners use chemicals. Because C.P. is a bioactive cleaner that uses no chemicals, it won't kill the bacteria in K.O.

B.C. BILGE CLEANER!

B.C. Leaves Your Bilge As Clean And As Clean-Smelling As When Your Boat Was New.

B.C. emulsifies oil, grease, dirt and sludge better than any competing bilge cleaner, deodorizing as it cleans. Since B.C. has no odor of its own, you're left with a fresh-smelling bilge as well as a clean one.

B.C. Cleans Engines Too!

The dirtiest engines and engine parts come clean as new with just a spray and a wipe or a few minute's soak in B.C. and water.

B.C. Cleans Grills And Teakwood, Too!

Keep some in the galley and in the kitchen at home. You'll love it!

B.C. is safe to use on any colorfast surface or material. It won't harm gelcoat, fiberglass, wood, varnish, aluminum, vinyl, plastic, steel, most paints or anything else including your hands. We do recommend you wear rubber gloves, though, especially if your skin is sensitive or you plan to have your hands in B.C. for more than a few minutes.

C.U. CLEANS UP!

C.U. Cleans Up Everything – Even Bird And Spider Droppings.

C. U. removes dirt, grime, exhaust stains, that impossible black streak at the water line and yes – even spider droppings on decks, hulls, canvas, sails, upholstery and deck furniture. Even fenders and power cords come shining clean with a minimum of effort using C.U. Unlike other cleaners, C.U. contains no harmful solvents or alkali. C.U. will not harden vinyl.

C.U. Removes Mildew.

C.U. will remove more mildew stain than anything except bleach. It will completely remove mildew from all non-fabric surfaces. C.U., unlike cleaners which contain phosphates, also retards mildew from returning.

C.U. is safe to use on any colorfast surface or material, including varnish, most paints, fabrics and aluminum.

R.C. RARITAN CONCENTRATE

R.C. Raritan Concentrate - the best way to eliminate the odors associated with raw water intake toilets

Raw water intake can be a major source of odors in toilet systems, the odor comes from sealife decaying in the lines and bowl. Raritan Concentrate is designed to help prevent the rotten egg smell from occurring by treating the incoming water. It can be used with the Crown Head tank, Atlantes Deodorant system (ADS) or the Toilet Water Kit (TWK).
